When 'I' is replaced by 'We'

Even 'illness' becomes 'Wellness'

Dear Parent

As we all know that the time which we are going through is really obnoxious. This is a situation which could be won only by being Self restraint and I am sure that you all are following the guidelines shared by WHO & making your kids cognizant regarding the same.

Life is what you want to make it and this world is the manifestations of the thoughts that lies in your heart, If you will have an optimistic approach towards any problem the whole world will look like a bunch of flowers but on the contrary if we will see the world with pessimism then the world will look like a dark cave full of enmity. The need of the hour is that we have to be more pragmatic. We should not feel like that we are sitting ideal at home or not doing anything but we should think that God has created a wonderful serendipity for us to be with our children, spend some time with them ,connect with them emotionally , understand them in a better way & nurture their creativity.

Children are like a butterfly in the wind, everyone have their unique way of flying. Let's take an opportunity from this catastrophic situation to understand the unique ways of our flying butterflies.

The education of our children is of utmost importance for us and we are taking all the measures that these situations would not curb us to give knowledge to our scholars, but as we all know that no one can whistle a symphony alone, it takes a whole orchestra to play it similarly we need your constant support for sowing the knowledge of tree in the lives of our children .So let's collaborate together through technology.

Virtual classes have been started in which the students can utilize their time in a productive way and study all the subjects sitting at home w. e. f . 1st April 2020.

Some important information regarding Virtual classes.

- These classes are being organized from Montessori to class 12
- The teachers are uploading the required study material in the shared span of time
- Practice sheets and videos are sent by the teachers for the better understanding of topic and practice of students.

- Along with scholastic, classes for co-scholastic subjects like dancing, music & art will also be organized.
- We expect a whole heartedly support from all of you as the whole work in based on technology so we could face some technological problems while conducting the classes. We look forward to your Co-operation & Support.

“Together we can, we will make a difference”
