Activity name: OUTDOOR SCAVENGER HUNT

Class: III

Date: 20.04.22

Description:

SCAVENGER HUNT WRITE UP

Nature works on a definite rule of 'give and take'. To understand this, the students of class III participated in the activity 'Scavenger Hunt'. They decorated three cardboard boxes and labelled them as 'Reduce', 'Reuse' and 'Recycle'. They, then, collected waste material from their surroundings, categorized it into reduce, reuse or recycle and put it in the allotted box. They also spoke a few lines for explanation and sang a lovely song to understand the concept better. All students thoroughly understood the concept of waste management and enjoyed the activity that developed their art &craft and speaking skills.
