

**Activity name: Tri on World**

**Class: III**

**Date: 10th August, 2022**

**Description:**

“Learning is not the product of teaching. Learning is the product of the activity of learners.”

Considering this beautiful thought grade 3 students, learned about the various Polygons like Quadrilaterals, Hexagons, Pentagons and Octagons with the help of triangles.

Students combined the triangles to make these resulting polygons.

Various innovative ideas were used by children to present this activity and explain it.

With the help of this activity children were able to understand various polygons and they did brainstorming to use numbers of triangles to present the shapes.

Students really enjoyed this activity and overall, it was a fun activity.
