

Activity name: Let's See What we can do to Save the Environment

Class: V

Date: 20-04-2022

Description:

By conducting this activity, we inculcated the awareness among students and helped them to empower the utilization of the resources and conservation of the environment. Students developed the thought that Every day is Earth Day, and we must start investing in protecting the environment right now to have a secure climate future. This activity was planned in all the sections of grade 5. All students showed their concern about nature with Slogans, drawings and message through dance.
