

Activity name: Animal Masking

Class: PP

Date: September 2022

Description:

From an early age kids notice different shapes in their immediate environment even at that time they don't know that shapes have different names. Learning shapes not only helps children identify and organise visual information. it also helps the kids learn skills in other curriculum areas including English, maths, science . For example- an early step in understanding numbers and letters is to recognise their shapes. Diamond shape has been introduced to the Pre primary students in a fun way where they made diamond and rectangle shapes monster who was very hungry and arranged the blocks on the diamond shape made on the floor and different activities like block Printing ,walk around the shapes . This learning experience was full of fun n excitement.
