

Activity name: I have, who has?

Class: III

Date:19.12.2022

Description:

“Every activity worth doing has a learning curve”

Considering this beautiful thought, grade 3 students learned about multiplication and division facts. Students asked the questions from each other based on multiplication and division facts and gave the answers among themselves.

A chain game was played in the class.

Learning Outcome:

Student learnt about the facts of multiplication and division in a play way mode and were spontaneous enough to give the answers and asking the questions.

Everyone enjoyed this spontaneous game played in the class.

Glimpses:
