

Activity name: MATH-O-CRAFT

Class: II

Date: 12-DECEMBER-22

Description:

To develop the essential math and Numeric skills in students, the MATH-O-CRAFT Activity was conducted in class II on 12-December-22. Math-o-crafts are simple, and fun board games we can prepare at home to understand the Numeric skills of any concept in math. Students used colourful best out of waste material to prepare MULTIPLICATION TOYS to help them understand TIMES TABLE in multiplication. This improved the understanding and Numeric skills of the students, and they enjoyed the activity.
