

Activity name: GIFTED HANDS AND HEARTS

(Movie Screening- Gifted Hands)

Class: VIII

Date: 2nd May, 2023

Description: -

Classroom movies are a great way to help students practice their media literacy skills. Active viewing is a skill that doesn't always come naturally, but it's something all students can practice and learn. This is why to honour International Doctors Day we made the students of Class VIII watch a movie called ' Gifted Hands- The Ben Carson Story' directed by ' Thomas Carter'. The movie throws light on the life of a doctor who was an average minded and dim witted being and how his hard work and determination made him a world renowned neurosurgeon.

The students enjoyed the screening session and had a lot to discuss after that. It was an entertaining and comprehensive activity in a whole.

Here is a glimpse of the activity: -
