Manipur is the birthplace of black stone pottery. It is also known for its vast expanse of flora and fauna.

Inspired by this, students are required to build a plant pot from scratch:-

- Material used - Clay
- Mold it in any shape they like.
- Paint it black
- Design it

Once the pot is ready they can choose a plant to grow, get the seed, sow it in the pot they have curated, nurture it and bring the plant to school on National Conservation Day- 28th July,2023, along with a short poem on National Conservation Day.

“A beautiful and fun initiative towards our environment influenced by the beauty of Manipur.”
