

# Bal Bharati PUBLIC SCHOOL M A N E S A R

**Activity name: DIGITAL PORTFOLIOS**

**Class: IX-X**

**Date: 5<sup>th</sup> July, 2023**

**Description:** In this activity, popular google tool 'Google Sites' was introduced to the students. Google Sites is a web page-building platform for students or web based team for designing webpages. Students were made aware about the tools, themes, templates, embedding and making collaborative sites. Students used this platform for making digital portfolios displaying all information about them as a student and they displayed their holidays homework and assignments in the form of hyperlinks in the webpages. Students designed their own websites showcasing the portfolios. Through this activity, they learnt about organising and archive their work assignments done throughout the year. This will help them in scoring good grades in internal assessments.
