

Bal Bharati PUBLIC SCHOOL M A N E S A R

Activity name: Raise The Vibe

Class: VI

Date: 5th July, 2023

Description: In this activity, students learnt about a new IT Tool- Animaker. It is an online do-it-yourself animation video maker that brings quality in animated presentations. Students created a digital commercial presenting itinerary of any famous tourist place of their choice highlighting the special attractions of that place and all the information about that place. They incorporated audio, text and graphics along with the animation features of Animaker. Catchy taglines & keynotes, animations & transitions on the graphics available in the software and weaving them all together in the presentation made the students keen to use the Animaker tool.
