## REPORT

**Date:** 3rd July, 2023

**Venue:** Bal Bharti Public School, IMT Manesar

**Number of Participants:** 06th - 08th Classes

The programme started in classes 06th - 08th at the same time, where the trainers started the club by introducing themselves and about the themes that will be covered in the 3 months programme. Initially, post self briefing, the trainers introduced students about the importance of public speaking, understanding of the sustainable development goals (SDGs) and leadership qualities. Furthermore, an activity to introduce the concept of critical thinking amongst students was conducted, namely “Let’s go to Mars” wherein the

students had to introduce themselves and name one item that they will carry along to mars (if allowed). The students gave a myriad of answers, to which the trainer had to respond either yes or no. Additionally, the students had the task to figure out the reason behind the response from the trainer. Various Perspectives from all were heard and the entire class engaged in the activity during the session. Lastly, students were taught about a trick to remember the first 4 SDG goals in an easy manner and were allotted the homework to think of more such tricks to remember the Global Goals.
