### REPORT

#### Class Activity IX- CLAY PLAY AND THE CURTAIN CALL

1. **Date & Time of the Assembly:** 18 TH and 19th July,2023
2. **Venue:** Class IX- A and IX-B
3. **Purpose :-** To assess the creativity of the students in a whole.
4. **Organizer:-** Bal Bharati Public School
5. **Teacher in charge:-** Ms. Madhurima Saigal

- 6. **Key highlights / main points:**

As a part of their academic learning, the students of class IX-A and IX-B had gathered their knowledge about instruments and maestros from their chapter ' Sound of Music'. Owing to this knowledge the students were asked to create a percussion instrument model with the help of clay to incorporate art integration in their learnings. Along with this, just to add some fun and drama , they also performed a small character dramatization on Bismillah Khan and Evelyn Glennie to display their acting and expressions.

The students' effort in the activity was truly remarkable and commendable. From the moment they started their clay creation or stepped onto the stage, their dedication and passion were palpable. They exhibited a willingness to experiment, explore, and push themselves beyond their comfort zones, resulting in stunning works of art and captivating performances. It was evident that they had invested their time and energy into honing their craft, and their hard work paid off in the beautiful art pieces created and the memorable skits performed. Their collaboration, focus, and determination were truly inspiring,

reminding us all of the power of creativity and the incredible growth that comes from putting forth genuine effort.

1) Art Integration Activity:-

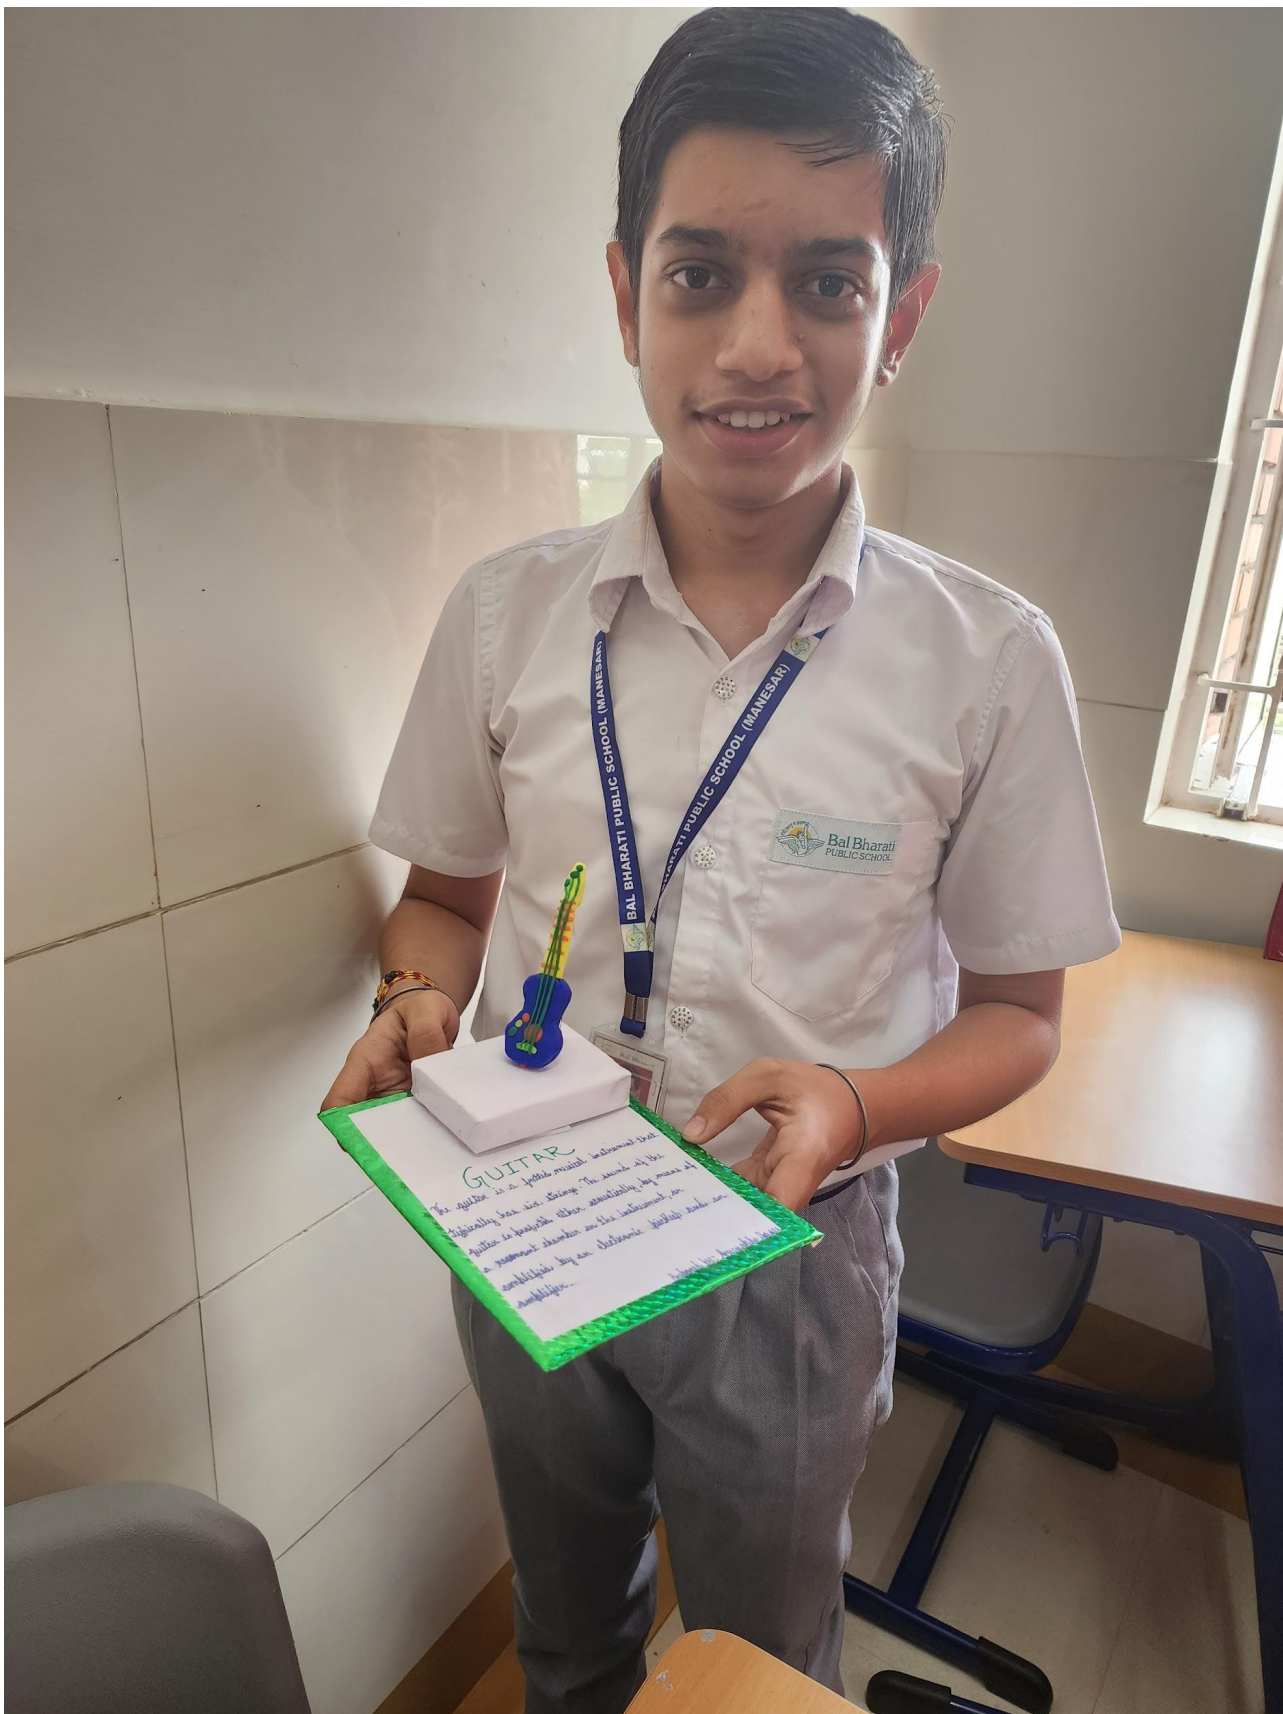

Harp is a musical instrument with strings that are plucked to produce different pitches. The no. of strings varies widely from a few strings to 47 strings. Harps were widely used in the ancient mediterranean & middle east. In an orchestra a single harp is used & can be played as a single instrument. Harp is believed to be existed since 15,000 BC, making it one of the oldest instruments. It was found in ancient egypt.

(Developed in  
1550)

Developed by  
Andrea Amati.

The Violin, sometimes known as a fiddle, is a wooden chordophone (string instrument) in the violin family. Most violins have a hollow wooden body. It is the smallest and thus highest-pitched instrument (soprano) in the family in regular use. The violin typically has four strings (some can have five), usually tuned in perfect fifths with notes G3, D4, A4, E5, and is most commonly played by drawing a bow across its strings. It can also be played by plucking the strings with the fingers (pizzicato) and, in specialized cases, by striking the strings with the wooden side of the bow (collegno).

# Musical Instruments

- Guitar is a stringed instrument with a flat body, a long neck with frets.
- A drum is a percussion instrument.
- Piano is a keyboard musical instrument.
