Activity Name:	**STACK TECH**
Class:	**VIII**
Date:	**6/7/2023**
Platform :	**TINKERCAD (https://www.tinkercad.com/)**
Theme:	**Sustainable Development Goals**

Description: Tinkercad is a tool that offers a fast and easy way to draw a 3D design.This application enables you to move, scale,and rotate objects with ease. Students are required to prepare 3D model that is the solution for the problem statement they have taken.The choice of the problem statement was sustainable development goals.They have used 3d modelling software which enabled them to align or make objects. It allows you to rotate any shape.Students have created beautiful 3D models of School,Agriculture,City,Villages based on sustainability solutions.
