ART-INTEGRATED LEARNING ACTIVITY-THE SOUND OF MUSIC

An Art Integrated Learning Activity was conducted with the students of class IX C on 5th July,2023, in their English period. The students had gathered knowledge about the chapter ‘The Sound of Music’ and to enhance their concept about different musical instruments, an activity was conducted where the students had used coloured clay moulds to make a variety of musical instruments. The ambience of the classroom was further energised when some of them gave their live performance, using different instruments.

The overwhelming enthusiasm and involvement of the students helped them to nurture their concept and skill as well as to stretch and explore their thinking abilities to achieve a better understanding of the topic. At the end, their broad smiles gave the activity a success.
