

# SESSION - 2023 -24

## Logbook for the month of April

Date	Description
17 <sup>th</sup> April	<p><b>Greetings are important social skill that help people/students to navigate the world around them and play a vital role in building relationships, fostering a sense of belongingness and social interaction. The way in which a young child greets others, when they first meet, reveals a great deal about how well- mannered the child is and creates a good impression on others. Our preschoolers learnt the art of winning hearts by saying and doing Namaskar with joining hands and a lovely smile. They also learnt how to greet in some other countries as well.</b></p>
