

SESSION - 2023 -24

Logbook for the month of April

Date	Description
21st April	OF NOTES AND MOVES
	<p>Creativity and self - expression are vital to our child's well-being and dancing is a fun way to boost creativity, confidence and fitness. It's an excellent idea to make the kids aware about their different body parts through dancing as small kids love to move their bodies on beats. Our little preschoolers learnt the body parts in a fun way through free dance and with lots of enthusiasm.</p>
