

SESSION - 2023 -24

Logbook for the month of May

Date	Description
10th May	Technical Adventures
	<p>Tiny tots of kindergarten had the privilege of visiting the computer lab in the school premises. This unique initiative was designed to introduce young minds to world of technology and digital learning. Facilitator taught the children to explore letters and numbers through keyboard. It was really amazing to see how quickly the kids adapt to these new technologies. The visit to computer lab has been an enlightening experience for the children. It's inspiring to see how technology can be utilized to spark curiosity and facilitate early learning among children.</p>
