

ACTIVITY – INDIA'S IMPRESA

'India's Impresa' in Class 3 was a delightful and educational activity where our young students showcased their artistic talents and love for their country. Guided by the theme of Independent India, they designed creative logos that symbolized the essence of our nation's independence. Through colourful expressions and imaginative designs, these young minds beautifully encapsulated India's unity in diversity, rich culture, and the spirit of freedom. This activity not only nurtured their creative abilities but also instilled in them a sense of pride for their motherland, fostering a deeper connection to the values and history that make India truly special.
