

# SESSION - 2023 -24

Date	Description
19-10-23	<b>NECTOR RELAY</b>
	<p>In a captivating and imaginative educational activity, children at BBPS, Manesar rolled the dice designed with different insects, such as butterfly, ladybug, bee, caterpillar etc. bringing an exciting twist to learning about the natural world. The children started the race by rolling the dice and imitating the movements and behaviors of the insect displayed on the face of the dice. Their faces lit up with joy and curiosity as they took turns rolling the insect-themed dice and interpreting their assigned insect's unique characteristics. Butterflies fluttered gracefully, ladybugs scuttled playfully, and bees buzzed around with enthusiasm. This interactive activity not only encouraged physical movement and exercise but also sparked an interest in the fascinating world of insects.
