

SESSION - 2023 -24

Date	Description
29th September	SHAPE SCAVENGER HUNT
	<p>Scavenger hunts are a fun and engaging outdoor activity that promotes exploration and learning for preschool children. In this activity, children were encouraged to search for leaves or stones and identify their shape. It not only helps in development of their observational skills but also enhances their fine motor skills as they collect and examine different objects. Additionally, this activity fosters critical thinking as children compare and describe the shapes they find. Overall, scavenger hunts offer an interactive and educational experience for preschool, making learning an enjoyable adventure.</p>
