

SESSION - 2023 -24

Date	Description
9th November	<p>Indigenous craft best out of waste is a fun and environmentally friendly activity for preschool. It teaches them to use everyday items like empty bottles, cardboard, paper plates, popsicle and buttons in creative ways. This activity introduces children to the concept of recycling and reusing materials, while also promoting their imagination and fine motor skills. Through this craft, children can learn about indigenous cultures and traditions, and discover the beauty of creating something new out of old materials. It's a great way to encourage creativity and teach kids about the importance of preserving our planet.</p>
