**Description:**

The Astronomy Club organized an engaging and educational activity titled "**Cosmic Vocab Challenge**". The event aimed to enhance students' astronomical vocabulary, foster curiosity about space science, and encourage collaborative learning. The challenge witnessed enthusiastic participation from students across different grades. Participants were divided into teams and were tasked with decoding complex astronomical terms, forming word webs, and using the terms in creative ways such as quizzes, riddles, and short explanations. The event included multiple rounds like **Word Hunt**, **Spell the Stars**, and **Decode the Cosmos**, each designed to test their knowledge and quick thinking. Students showcased excellent teamwork, creativity, and quick thinking. The activity enriched their scientific vocabulary and boosted confidence. It was a successful and engaging event. Special appreciation was given to the teams that showcased exceptional creativity and in-depth understanding of the terms.
